

Needfinding: Exercise

HCI Fundamentals

Luigi De Russis, Alberto Monge Roffarello

Academic Year 2026/2027

Administrativa

- **Assignment 1** is out
 - Due: October 29 EoD
 - It will last four labs: use those for discussing with the teacher of your slot and getting as much as feedback as possible
- Friday's lab (October 2) is for **choosing** your specific domain and **preparing** a draft of the questions

Goal

- Reflect on good vs. bad interviews
- Plan the interview process in a sample domain
 - Start developing the questions
- **Interactive exercise**—contribute, suggest and comment!

A Sample Domain

- Theme: Transportation
- Specific domain: students travelling by bike to go to the university

Target user(s)

- Immediate users: university students who have a bike and use it 3+ times a week, commuting from more than 3 years, ...
- Domain experts: city planner for bike lanes
- Lead/extreme users: people commuting to work by bike from a long time

Planning an Interview

- To whom?
- **Direct 1:1 Interview** vs. Focus Group vs. Survey
- General Structure
- Questions
 - How many?
 - Which ones?
- Interacting
 - Follow-ups?
- Recording
 - Paper / Audio / Video / Pictures ?

Interview Structure

- Introduction: why are we here? time, about an investigation on..., not testing you, you are helping us, there are no wrong answers, how it works, ask for permission to share/elaborate responses + recordings
- Questions about the topic: some are the same for everyone, some depend on the kind of users. Possible steps:
 - Background/Context
 - Going deep
 - Clarifications/successes and failures
 - Reflections
- Questions about the user: how often they use <transportation mean>? ...
- Thank you, (gift), contact information

Questions (a few examples)

- Why are you commuting by bike?
- Tell me about the last time you had a bike malfunction while commuting.
- From 1 (where 1 is...) to 5 (where 5 is...) how is it easy to reach the university using the path you take?
